BUILDERS will MAKE MONEY

Who buy land, for improvement, at

West Collingswood, New Jersey
There's "A Eoom" On Here!

The demand for houses is way beyond the supply. Houses ranging from \$2,800 to \$4,400 sell faster than they can be built. Builders and operators will find West Collingswood the surest field for building operations in this part of the country. Most desirable locality—all improvements—water, gas, electricity, sewers, pavements, frequent trains and trolley and 5-cent fare. About 200 acres for sale, on advantageous terms to builders; advances if required.

It will pay builders to investigate this.

PHILADELPHIA, WED'Y, MAY 8, 1907

THE REAL ESTATE TITLE CO.'S NEW PRESIDENT.

Mr. Holstein De Haven, a prominent real estate man and conveyancer of this city, has been elected by the Board of Directors of the Real Estate Title Company as president of the company, the position having been capably filled for many years by the late Joseph L. Caven, Esq.

The new president is a gentleman of long practical experience in real estate, and it is doubtful if there is anyone better equipped in all the details involved in the management of a trust company's business affairs than he is, for he has devoted many years to financial matters as well as conveyancing, title insurance and operation building. The new president was one of the founders of this company, and, since its inception, has been one of its directors. Mr. John A. Rigg, president of the United Power & Transportation Company and the Interstate Railways, was elected a director of the company.

SPRING TIME PAINTING.

As the young man's fancy turns to love with the regularity of the arrival of Spring, so also the owners of things of practical use turn to the idea of painting, with the view of perpetuating the use and value of such things as long as possible, in defiance of wear and weather.

There is little room for sentiment in this proposition, as it concerns paint, which is in reality the very existence of the things painted, whether of wood or iron.

There is much that even practical men do not know about paint and painting; hence it is only horse sense which prompts a fellow, even if he thinks he knows, to seek information which may mean the saving of hard-earned money.

The Joseph Dixon Crucible Co., 1020 Arch

street, this city, has published a booklet which tells of the wonderful preserving qualities of Silica-Graphite paint, which, regardless of the material of which the thing to be painted is made, so perfectly seals the surface as to absolutely prevent rot or rust; and while it is not claimed that a single coat will last forever, it will, however, last so long that its superior economic value will become part of the mental make-up of those who use it.

Dixon's Silica-Graphite Paint is made in four shades: olive green; natural, or graphite gray; dark red, and black, and is adapted to every class of exposed metal and wood surfaces, bridges, roofs, fences, smoke stacks, poles, ornamental iron work, in fact, wherever lasting protection is desired.

It has good covering power, and the lubricating qualities of Flake Graphite assure thorough application as well as saving in labor and brushes. Its excellent protective qualities upon wood and metal surfaces have been thoroughly demonstrated over a period of forty years. Spring is here and painting is in order. Send for the booklet. You get it for the asking, and the Dixon Company pays the postage. Give the paint a trial, and you will everlastingly assert its goodness.

BUILDING AND REAL ESTATE NOTE

P. J. McDevitt, builder, 1916 Cherry street, has been awarded the contract to build the new Catholic Church, at Ridley Park, Pa. It will be one-story high, built of stone and contain the usual church furnishings, and will cost \$72,240. Plans and specifications by Geo. I. Lovatt, architect, 420 Walnut street.

Arthur H. Williams' Sons, builders, 419 Locust street, have been awarded the contract to build additions to the church and parish house of Grace Church, at the corner of Gowen and Sullivan avenues, Mount Airy. The addition to the church will be of stone and measure, 41 x 41 feet. The parish house addition will be two stories high, of stone and measure 28 x 36 feet. The cost will be \$20,000. George Natress & Son, Church House Building, Twelfth and Walnut streets, are the architects.

The special committee of the board of health, of Camden, N. J., made up of Dr. M. K. Mmes, Dr. W. J. Kelchner, Dr. S. G. Bushney and Dr. E. W. Collins, to inquire into the subject of a site for the new municipal hospital, made a tour of Camden last week with the idea of looking over real estate in anticipation of selecting or at least recommending the purchasing of land for the hospital to be built upon. Should the board of health find it more advisable to go outside of the city limits for their land, they can do so.

Bowers & Logan, builders, Heed Building, have been awarded the contract to build the new club house for the Thirty-fourth Ward Republican Club, at Fifty-first street and Lancaster avenue. It will be three stories in height, 25 x 80 feet, and be constructed of

brick and stone. The first floor will contain general club rooms, reception room, with large parlor on the second floor. The entire third floor will be an assembly room with stage and dressing rooms. Plans by Harry L. Reinhold, Jr., architect, 1004 Chestnut street.

At a recent quarterly meeting of the Trustees of the Delaware State Hospital, at Farnhurst, Pa., the plans for the erection of the addition to the hospital were discussed and they call for a two-story and basement structure, with dormitories on the ground floor, corresponding to plans adopted by similar institutions throughout the country. The building is to be used for colored patients, and the plans were received from the following architectural firms: Totten & Rogers, of this city; Connell & Pierson, E. James Dallet and J. & M. Kennedy Bros., all of Wilmington, Del.

Wilson H. Lear, lumber dealer, 955 North Front street, has purchased the old Liebradit-McDowell Stove Works, bounded by East Girard avenue, Fletcher, Norris and Beach street, facing Cramps Shipyard. It measures as follows: 300 feet on Fletcher street, 558 feet on Girard avenue, 306 feet on Norris street and 458 feet on Beach street. The property is assessed for \$100,000. Mr. Lear informs us that he is undecided what he will do with this tract. He may sell it for manufacturing purposes, or he may erect a large operation of workmen's houses. Nothing will be done in the matter for at least six weeks.

N. Z. Graves Company, manufacturers of varnish and japan, southeast corner of Third and Arch street, have purchased the old Mechanics National Bank Building, a marble structure, at Nos 22-24 South Third street, for nominal consideration. The property is on a lot, 39 x 134 feet, and is assessed at \$44,000. The building is now used temporarily by the Union National Bank, pending completion of its new bank building at the northeast corner of Third and Arch street. As soon as the N. Z. Graves Company secures possession they will alter the building for office purposes, to be occupied by them.

Sealed proposals, in triplicate, subject to the usual conditions, will be received until 11 o'clock A. M., May 31, 1907, and then opened, for heating, (in accordance with plans and specifications at this office), of buildings 1, 3 and 6 at this depot. The right is reserved to reject or accept any or all proposals or any part thereof. A guarantee in 10 per cent. of the total amount of bid must accompany each proposal. Certified check will be accepted in lieu of written guarantee. Unguaranteed bids will not be considered. Plans, specifications, blanks for proposals and full information will be furnished upon application at this office. Envelopes containing proposals to be endorsed "Proposals for Steam Heating, to be opened May 31, 1907." Lt. Col. F. G. Hodgson, Constructing Quartermaster, Quartermaster's Office, Twenty-sixth street and Grays Ferry Road.

ARCHITECTS NOTES

Henry G. Dagit, architect, formerly of 435 Chestnut street, has moved his office to 411 Walnut street.

Peter Kuhn, architect, 1015 Diamond street, is engaged on plans for the following: Five three-story stores and dwellings to be built at Germantown avenue and Bristol street; four dwellings on Greene, below Manheim street; six dwellings and a store at Butler and Lawrence streets; a stable and two stores at Ninth and Old York road, and 50 small dwellings at Dover, N. J. The total cost is about \$200,000.

Stephen Greene, who was president of the Methodist Episcopal Hospital for four years until he resigned last month, will present a new building to be used as an isolation ward and be erected on the grounds of the institution at Broad and Wolf streets. Stearns & Castor, architects, Stephen Girard Building, have been commissioned to prepare the plans and specifications. It will be four stories high, built of brick and stone and will cost \$60,000.

Herbert N. Moffett, architect, 307 Market street, Camden, N. J., has awarded the contract to build the walls of the new Broadway Trust Company's building at 1009 Broadway, to Wm. Wrifford, 525 Market street, that city. The contract price is \$4,800. The architect will receive bids for all other work. The same architect is engaged on plans for a 2½ story frame dwelling 26x34 feet to be built at Bridgeton, N. J., to cost \$4,500, for Mr. Robert McAllister, of Bridgeton, N. J. Also plans for a brick school building 70x40 feet to be built at Anglesea, N. J., to cost \$15,000.

C. E. Schermerhorn, architect, 430 Walnut street, has invited the following contractors to give revised estimates on the house to be built at Oak Lane, Pa., for the Misses Gildemeyer: Chas. H. Eckan, Stewart Brothers, D. W. Sperry, F. L. Hoover & Sons, Inc., Robert Killough, A. L. Fretz & Son and John N. Gill & Co. The revised plans provide for a three story house. The third floor will be plastered and finished to correspond with the other portions of the house. An extra porch has been provided for on the second floor. Chestnut Hill instead of local stone will be used. The heating system will not be changed. Bids due May 18th.

Hewett, Stevens and Paist, architects, Bullitt Building, have been commissioned by a syndicate of Philadelphia capitalists, headed by Robert M. Catts, with offices in the Land Title Building, to prepare plans for a handsome new hotel to be erected at Third and Walnut streets, Harrisburg, Pa. It will be twelve stories and basement high, constructed of stone and terra cotta, the

first and mezzanine floors being of a light stone and the balance of terra cotta. It will be handsomely finished on the interior and will have every comfort and safety. It is expected that plans will be ready for bids in about six weeks' time.

Jacob Naschold, architect, 1118 Chestnut street, has completed plans and will invite estimates the latter part of this week for a handsome new residence to be built on Summit avenue, Jenkintown, Pa., for Mr. Robert Evans. It will be two stories and attic high, 27x42 feet with a kitchen wing. It will be constructed of stone, frame and rough cast, and will be finished on the interior in mahogany with open fire places, mantels, hot water heating, and tile baths, and all conveniences. The same architect is working on plans for a new residence for Mr. Jacob Busch, to be erected at Twelfth and Fisher Lane, Oak Lane. It will be also two stories and attic high, constructed of stone and frame, with slate roof, porches, hardwood on the interior, open fireplaces, with hot water heating. Will be ready for bids in about two weeks' time.

Thomas Stephens, architect, Masonic Temple Building, Camden, N. J., is working on plans for police quarters to be erected adjoining the jail at Haddon avenue and Benson street, that city. It will be built of red pressed brick and Indiana limestone and be three stories and basement high. The interior will be finished in chestnut and heated by steam. Bids will be invited in about two weeks' time. The same architect is working on plans for a new residence to be erected at Merchantville, N. J., for Mr. Walcott. It will be two and a half stories high, built of frame and will measure 30x38 feet. It will have a porch on the front, hardwood on the interior, heated by hot air and contain all modern improvements. The architect will invite bids in about a week's time. He has also completed plans and specifications and sent same to the owner, Dr. A. E. Street, 584 Benson street, Camden, N. J., who will take bids for an apartment house to be erected at Seventh and Sycamore streets, that city. It will be two stories and basement high, 19x106 feet, and will be built of brick and stone. The first floor will contain a store and the second floor eighteen rooms with baths. It will be modern in its construction.

Balling and Perrot, architects and engineers, 1200 Chestnut street, have invited estimates from Kaighn and Draper, Camden, N. J., for additional fifth and sixth stories to the new laboratory being erected at the southeast corner of Front and Cooper streets, Camden, N. J., for the Victor Talking Machine Company. The additional stories will be similar in

design and construction to the present building, which has a frontage of 89 feet on Cooper street and 100 feet on Front street, and is now four stories in height. It is fireproof throughout, having walls of concrete blocks and the columns, floors and roof of reinforced concrete construction, and slag roof covering. The same firm of architects have awarded the contract to Herbert E. Havens, builder, Girard Building, for alterations and additions to the building of Robert Ralston and Son, northeast corner of Thirteenth and Girard avenue. Work will be commenced at once and completed in two months.

George E. Savage, architect, 401 Chestnut street, has completed plans and invited estimates for the new public school to be built at Darby, Pa., for the Board of Education of that place. It will be three stories high, built of stone and measure 100x100 feet and will contain 20 class rooms on the first and second floors, with large auditorium to seat 700 persons on the third floor. Bids due May 22d. The following builders have plans posted: Mr. North and Mr. Lockhand, of Glendolen, Pa.; F. L. Hoover & Sons, Inc.; Lynch Brothers, Metzger & Wells, Alexander Chambley, James Christner and Daniel W. Sperry, of this city. The same architect is also ready for sub bids on the handsome new edifice for the First Baptist congregation to be erected at Media, Pa. It will be one story and basement high, 65x107 feet, and be constructed of stone with slate roof and will have Sunday school in the basement with an auditorium on first floor to seat 400 persons. Bids due May 28th.

Before the close of June 1, a fund of at least \$250,000 will have been subscribed for the purpose of purchasing a site and erecting a permanent home for the Young Men's Christian Association of Camden, N. J., suited to the needs of its 1,400 members. This statement was made at a meeting held in Leeds Hall, that city, on Tuesday evening last. George H. Tyler announced that the committee had decided to raise \$100,000, and Frank Sterns announced that the Young Men's Committee would raise \$50,000, and that the Keystone Leather Company would contribute \$5,000. The Board of Directors, through personal contributions, have added \$50,000, making a total of \$205,000. The balance of the money, it is expected, will be received by donations from citizens. The executive committee that will manage the campaign is composed of the following: C. A. Reynolds, chairman; J. W. Ayer, David Baird, Walter Wood, Eldridge R. Johnson, Alexander C. Wood, Mayor Charles H. Ellis, George H. Tyler, F. H. Stevens, E. E. Long and Ira E. Lute, all of Camden.

ON Thursday afternoon, May 23d, the Sub-Committee of the Joint Committee on Gas of Select and Common Councils held a public meeting to consider whether the lease of the Philadelphia Gas Works should be terminated.

Randal Morgan, Vice President of The United Gas Improvement Company, submitted a statement of the results to the City for the past nine years of the lease ending December 31, 1906, and estimates of the results to be expected during the next twenty years should the lease be continued for its full term.

Among the many interesting facts brought out by Mr. Morgan were the following:

"The reports published in the annual messages of the Mayor in each year show the average candle power and the average heat units contained in the gas for each year after the establishment of the testing stations as follows:

	Candle Power		British Thermal Units
	Maximum	Minimum	
1899	23.10	22.50	665
1900	23.01	22.60	704.4
1901	23.10	22.60	700.4
1902	23.22	22.79	703
1903	23.21	22.88	700

How much of the price received for gas is retained by the Gas Company?

The amount of gas sold to consumers and furnished free to the city for public street lighting and for illuminating public buildings, during the nine years ending December 31, 1906, has been 52,758,903.048 cubic feet.

The cash receipts were\$46,531,508.46

The uncollected bills on Dec. 31, 1906, were.... 597,951.97

Making a total of\$47,129,460.43

Deducting from this sum the amount paid the city, as above\$4,653,150.87

Also the city's ten per cent. of bills uncollected December 31, 1906, as above 59,795.20

4,712,946.07

Total amount retained by the Gas Company\$42,416,514.36

Dividing this sum by 52,758,903.048 cubic feet shows the actual amount per thousand cubic feet retained by the Gas Company, after payment of all rentals, excepting the expenditures for betterment and improvement of the plant, and excepting the cost of lighting, cleaning and extinguishing the public lamps.

For the nine years ending December 31, 1906, the Gas Company has, therefore, received per thousand cubic feet of gas 80 $\frac{49}{100}$ cents

Applying this method of calculation through the full thirty year term, estimating the sales on a basis of growth of three per cent. per annum, results as follows:

For the ten years ending December 31, 1907, the Gas Company will receive per thousand cubic feet of gas 80 $\frac{56}{100}$ cents
 For the five years ending December 31, 1912 .. 78 $\frac{12}{100}$ cents
 For the five years ending December 31, 1917 .. 74 $\frac{52}{100}$ cents
 For the ten years ending December 31, 1927 .. 70 $\frac{10}{100}$ cents
 For the entire period of twenty years beginning January 1, 1908, and ending December 31, 1927, an average of 72 $\frac{68}{100}$ cents

Out of the amounts which the company will retain, it must discharge the cost of lighting, cleaning and extinguishing the public street lamps, the cost of producing and distributing the gas and of maintaining the plant, and must also reimburse itself the amount which it has heretofore expended in extension, improvement and betterment of the city's property, and the amount which it will hereafter expend for the same purposes; the total without interest, expended in such extension, betterment and improvement of the city's property to December 31, 1906, with an estimate added of \$1,000,000 per annum for 1907, and for each year thereafter amounting in all to \$34,325,491.89.

In the tables given above no consideration has been taken of this actual cash expenditure made and to be made upon the city's property, because if the lease be terminated, then the principal with interest will be paid to the company, amounting to \$19,473,189.04; but if the lease shall not be terminated and shall continue till the end of the period of thirty years, then the amount that has been expended and will be so expended hereafter, must be deducted from the company's receipts, which will reduce the average amount retained by the company during the 20 years beginning January 1, 1908, and ending December 31, 1927, from the figures

stated above of 72 68-100 cents per thousand cubic feet of gas to 61 52-100 cents."

C. Stuart Patterson and Isaac H. Clothier voiced the sentiments of the many citizens present who oppose the termination of the lease.

Mr. Patterson said:

"The contrast between the condition of things when the works were administered by the city and the present has thoroughly convinced me that the gain is immeasurable not only in the quality of gas that is served, but in the way in which complaints which are made by consumers are answered and wrongs remedied under the present system."

Mr. Clothier declared that he had no corporate or personal interest in the gas business.

"But with all respect to those who take the other side of this question," he said, "it seems to me almost inconceivable under the conditions which are admitted by all that any body of men should counsel the city to make a change at this time. If we do not continue the lease, we enter upon a course which leads we know not whither. I believe that equity is the foundation of law, and I cannot believe that the responsibility of giving formal notice to the company of the abrogation of the lease should or could be afterward evaded by simply declining to do what the notice stated it to be the intention of the city to do.

"Lawyers as well as doctors sometimes disagree, and I understand that eminent counsel have given an opinion that such a ruling is inadmissible. I am satisfied that equity requires the city to live up to its notice, once it is given. Is it worth while to take the great risk of the change proposed and of possible years of litigation, when it is almost certain that we can in any event do no better and are likely to do worse?

"I remember well in 1897 attending the meetings of Councils when the subject of leasing the gas works was under consideration. The condition of affairs was bad—a most imperfect plant, main pipes worn out, insufficient supply in certain quarters of the city and bad quality of gas everywhere, with want of attention to calls of customers and no redress of grievances. It was felt that any change would be likely to be an improvement, even without taking into account the heavy financial loss every year under municipal management.

"Favoring the lease at that time, I confess I was unprepared for the actual results which have developed. The service has been excellent, so admirable in fact, that better service can scarcely be desired, and the financial results to the city have been even surprising to every thoughtful citizen. It is the old story of loose and incompetent handling of a business contrasted with able and economical management. To-day it is universally acknowledged that the management of the past ten years has been a great success from every point of view, and the only objection that is made from any quarter is that the lessee is also doing well, and in order to coerce from said lessee better terms, it is proposed by some to avail of the option and give the notice, taking the chances of securing better terms from the company, for I cannot think that any one can be really desirous of a change.

"Now, gentlemen, I look at the matter as I would look at any other plain business proposition. We are dealing with a company of thoroughly responsible men, equipped with ample capital, long experience in the business and superb business capacity, the one company in the United States which admittedly holds the leadership in the gas business, and that company a Philadelphia corporation. The latter is a point which should not be overlooked. I would remind you of the vast difference between running a business in absolutely the best way and running it with just a little less ability. One is apt to mean success and large profits, and the other may mean ruin, but certainly far less profits.

"The relations of the city and the U. G. I. present a remarkable instance of mutuality of interest. I am satisfied that there should be no rash experiment with the lease on the part of the city. I believe in the adage: 'Let well enough alone.' As we are satisfied with the physical management of the city's works and more than satisfied with the unexpected financial results, we should let well enough alone in the interest of the municipality and of its constituent citizenship."

It will be one story high, and will be in the Romanesque style of architecture, built of stone and contain the usual church furnishings. Plans will not be ready for bids for several weeks.

Bids have been invited from A. Raymond Raff, Herman Voigt and Charles W. Savage, by the building committee of Mingo Tribe, No. 124, I. O. R. M., for their new lodge building, to be erected at Twenty-ninth and York streets. It will be four stories and basement high, built of brick with terra cotta trimmings, and will have the usual appointments. Bids due June 11th. Plans by Joseph P. Savage, architect.

Plans provide for the altering of the rear end of the building into a gymnasium. Bids due June 10th. The following builders are bidding: Smith, Hardican & Co.; J. Sims Wilson, A. Raymond Raff, Thomas Reilly and Lam Building Company.

The trustees of the Phipps Institute, for the treatment of consumption now located temporarily at 238 Pine street, will shortly invite a number of local architects to prepare

plans in competition for the new hospital to be built at the northeast corner of Seventh and Lombard streets. It is the intention of the trustees to build a six-story modern fireproof structure to cost about \$300,000. Dr. Lawrence F. Flick has charge of the Phipps Institution and can give information.

The plans of Architects Palmer & Hornbostel, 63 Williams street, New York City, have been accepted by the Board of Awards of the Trustees of Public Buildings for the new educational building, to be erected at Albany, New York. The structure will be four stories high, of granite, marble, or limestone, classic in design and will front on Washington avenue. The cost will be \$3,000,000. It will contain, when completed, the State Library, State Museum and offices.

Koelle, Speth & Co., architects, 608 Chestnut street, have completed plans and specifications and invited estimates for a handsome addition to the Philadelphia Rifle Club building, at Tabor station, on the Reading Railway. It will be two stories high, of brick, with stone trimmings, and will measure 55 x 125 feet. Bids due June 11th. The following builders have plans posted: A. Raymond Raff, Metzger & Wells, John N. Gill & Co., George Kessler, Philip Haibach & Co., and J. C. Dieterle.

Mickve Israel Congregation, the oldest Jewish religious organization in the city, which worships in the synagogue on Seventh street, above Arch, has bought from William M. McCormick and J. J. Henry the lot at the southeast corner of Broad and York streets 245 by 145 feet, for a consideration of about \$75,000, and will erect a handsome new structure, at a cost of about \$150,000. Local architects will be invited to submit competitive plans for the Byzantine style of architecture. Rev. Leon H. Elmalch is the rabbi.

Ralph E. White, architect and engineer, Pennsylvania Building, has completed revised plans and specifications for a parochial school, to be erected at Gay and Connarroe streets, Manayunk, for St. Mary's Roman Catholic congregation. J. Matthews & Company, glazed kid manufacturers, of Philadelphia. The building will be one story, 53 feet wide by 505 feet long, with walls of brick and roof of slow-burning wood construction

with slag roof covering; floors will be of cement. The following contractors have been invited to estimate: Herbert E. Havens, Wm. B. Brown, Philip Haibach & Co., and Appleton & Burrell.

Duhring, Okie & Ziegler, architects, Bailey Building, have completed plans and specifications and invited estimates for a house and stable, for O. K. Reed, Esq., to be built at Wayne, Pa. The house will be two and a half stories high, constructed of stone, with slate roof, porches, hardwood on the interior, tile baths, open fireplaces, etc. The stable will be two stories high, also stone. Bids due June 14th. The following builders have plans posted:

R. C. Ballinger & Co., Smith, Hardican & Co.; Thomas Trafford and J. Cutler Fuller, of this city, and George H. Croll and J. D. Lenge, of Wayne, Pa.

The Western Saving Fund Society, at the southwest corner of Tenth and Walnut streets, have purchased the property 1008 Walnut street, from Emma F. Henderson, for a nominal consideration. The lot measures 25 x 126 feet, extending to Chestnut street, and is assessed for \$38,000. The society owns the bank building, at Tenth and Walnut streets, and 1004 and 1006 Walnut street, giving them a frontage on Walnut and Chancellor street, of 138 feet and 126 feet on Tenth, and is assessed for \$330,000. At an interview, held with one of the officers of the society, he stated that at the present time nothing would be done with the properties recently acquired. On account of being crowded for room they will build an addition to the bank in the future. Just when this would be done he could not say. James Windrim, architect, prepared the plans for the present bank building.

Ballinger & Perrot, architects and engineers, 1200 Chestnut street, have completed plans and ask for estimates, due June 10th, for a seven-story and basement, re-inforced concrete factory and storage building, 91x65 feet, to be built at the southeast corner of Fifth and Appletree streets for Smith, Kline and French Company, wholesale druggists. The property covers an area of 117x125 feet and is assessed for \$30,300. The new structure will be three or four stories high and will be modern in all its appointments.

PHILADELPHIA, WED'Y, JUNE 12, 1907

THE ITALIAN MARBLE MOSAIC COMPANY REACHING OUT.

It is gratifying to those who watch with interest the growing importance of Philadelphia's business concerns in the estimation of outsiders, even in large cities, who for some reason express a decided preference for Philadelphia houses even to the exclusion of their own local talent, notwithstanding the clannishness which controls these things to a great extent everywhere.

In this respect we are surprised to learn that the Italian Marble Mosaic Company, 429 and 431 Spruce street, this city, has a large number of contracts on hand of which the following are a few: Private residence, Reading, Pa.; bank at Kane, Pa.; hotel at Shenandoah, Pa.; hotel at Pottsville, Pa.; residence at Delanco, N. J.; Union Trust Building, Hibbs Office Building and Reed Hospital, at Washington, D. C.; U. S. Post Office, West Chester, Pa.; restaurant at Wilmington, Del.; hotel at Brier Cliff, N. Y.; post office at Patchogue, N. Y.; post office building, Dubois, Pa.; N. E. cor. Sixteenth and Dauphin streets, Phila.; drug store 3206 Market street; Boyertown Casket Co., 1217-21 Arch street; saloon Sixty-third street and Woodland avenue; Blue Bell Tavern, Seventy-third street and Woodland avenue; Colonnade Hotel, Fifteenth and Chestnut streets; Hallman's Lunch Room, 337 Chestnut street; seven houses at Sixth and Tasker streets, and a saloon at Fifty-fifth street and Girard avenue.

At York, York county, it is stated that the Municipal League has had plans prepared by Frederick Law Olmstead, Jr., landscape architect, of Brookline, Mass., for beautifying the city parks at a cost of \$100,000. It is probable that a loan will be placed for that amount.

At Cape May, Cape May county, the proposition to erect a new high school in Lower Township, Cape May county, is meeting with some opposition. The majority of taxpayers think that the school should be erected at Tuckahoe, that being the most central location.

At Newark, Architect Hyman Rosensohn, 188 Market street, has prepared plans for a four-story brick apartment house to accommodate sixteen families. It will occupy a site at 98 and 100 Quitman street; cost \$30,000. Owner, Mayer Krassner. We Learned Our Trade in Italy

THE BIRTHPLACE OF MOSAIC ART

There are still standing in that country hundreds of examples of this work that were done by Italian workmen thousands of years ago. Its enchanting beauty has justly placed it among the classics. We call it the last forever kind.

Our workmen were trained in this kind of work. Tile work is nothing more nor less than mosaic art in larger pieces. We are at your service.

AN-ELK'S HEAD FOR THE ASKING.

The coming of the widely extended organization known as "The Elks" to this city for the purpose of holding its annual convention, will, it is to be hoped, prove to be a pleasant as well as a profitable episode to the members of the organization, and unless Philadelphia's hospitality has greatly changed it is dead certain that if every Elk does not get as full as an Elk should be it will surely be his own fault.

An Elk without a head would be a poor spectacle indeed and in order that all may be able to secure a genuine Elk's head, which since 1844 has been Samuel H. French & Co.'s trade mark for its Buck Lead product, that firm has had printed a large quantity of cards with an Elk's head in the centre and bearing the following inscription:

"A cordial greeting to the Elks."
"We welcome you to Philadelphia and invite you to make our office your headquarters while attending the convention. All our facilities are yours.—Samuel H. French & Company, S. W. cor. Fourth and Calowhill streets, Philadelphia.

The cost will be \$200,000. Palmer & Hornbostel, 63 Williams street, will receive bids in a few months for the four-story educational building, 100x550

feet, to be erected at Albany, New York. The estimated cost is \$300,000. The same architects have completed the plans for additional buildings for the Carnegie Technical School, Schenley Park, Pittsburgh. The estimated cost is \$1,000,000.

J. R. Ogden, architect, 9 States avenue, Atlantic City, N. J., has prepared plans and specifications for a three-story brick and stone cottage, 20x60 feet, to be built at the corner of New Jersey and Med. avenues, that city, for Mr. George W. It will be modern in construction and contain all conveniences, best open plumbing, wired for electric lights, fans, etc., hot air heat and ventilating system, slate and copper roofing, plate and leaded glass, hardwood finish throughout and tile baths. The following builders are bidding: Thompson Bros., P. G. Hanum, Smith J. Albertson and August Cramer, all of Atlantic City, N. J.

Ballinger & Perrot, architects and engineers, 1200 Chestnut street, have invited revised bids for a manufactory to be erected on the west side of Collins street, north of Allegheny avenue, for C. H. The walls will be of brick, and the columns and floors of reinforced concrete construction with wood truss roof, with slag roof covering. There will be a boiler room in the basement and a radial brick stack, 3 feet 6 inches diameter, 80 feet high. The following contractors have been invited to submit bids: Appleton & Burrell, H. E. The roof will be 20 feet wide and 65 feet long. The first floor will contain a reception hall, dining room, pantry, kitchen and laundry. The second floor will contain a library, bath room and two chambers; the third floor, three chambers, a bath room and trunk room. The dining room will be panel wainscoted and the reception hall will have moulded cornice and columns. The bath rooms and kitchen will be tile wainscoted. Fireplaces and wood and tile mantels are provided in the principal rooms. The first floor will have a parquetry floor. The house will be finished in oak, chestnut and white enamel. Cement cellar floors and walks, tile and slate work, hardware, leaded glass and electric wiring. The owner will take estimates on hot water heating, plumbing and gas piping. 1907 JANUARY 1 TO JUNE 30, INCLUSIVE

Building Operations and Transfers of Real Estate, including mortgage and ground rent incumbrance, on the real estate transferred, together with the sales at auction.

5488 new buildings of all kinds, costing \$19,726,300 exclusive of the cost of the land against 6,645 for the same months of 1906, which cost \$18,467,458, a decrease in the number of new buildings of 1157 but an increase in the investment over that of last year for the same months of \$1,258,842.

1388 alterations and additions (costing \$300 and over only included) costing \$2,082,000, an increase in number of 61 and an increase in the investment of \$91,500.

The total of the investment in building improvements of all kinds up to June 30 and inclusive, is \$21,808,300, a gain over 1906 of \$1,350,342.

13,078 transfers of real estate up to June 30 and inclusive this year against 12,861 for the same period of 1906, a gain of 217, while the value of the property transferred this year is \$6,084,681.47 less than that transferred for the first six months of 1906.

We desire right here to establish the general correctness of the Real Estate Record's reports of construction work in this city through a comparison with the yearly reports of the Board of Real Estate Assessors in their returns of taxable properties, or in other words, the number of buildings of all kinds in the city on the first of January of each year.

In 1906 it was stated in the Assessors' returns that on January 1st of that year there were 320,541 buildings of all kinds in the city of Philadelphia. In 1907 it was stated by the same authority that there were on January 1st 330,892, or in other words an increase of 10,351. It will be recalled, however, that in January, 1907, this Journal stated that there were 10,804 new buildings erected and in course of erection as the result of the construction work done in 1906.

Hence there seems to be at first glance a great difference between our January report of 1907 giving the total construction work done in 1906 as 10,804 and those reported standing on January 1, 1907, by the Assessors, for if these 10,804 new buildings are added to the 320,541, it would seem that these should have been reported by the Assessors 331,345, a difference between the two reports of 453. It must not be forgotten, however, that our reports are based on the building permits issued and which we copy daily. These building permits make no mention of the old buildings which must be torn down to make room for the new structures.

This as an item of importance cuts such a figure that it may or may not explain away the entire difference in a single construction in the course of the proposed new building for the Curtis Publishing Company, on Walnut, Sixth, Seventh and Sanson streets forty-six old buildings will first have to be removed and yet the new building however extensive, when completed, will be counted as a single one in the following yearly report of the Board of Real Estate Assessors.

Again, buildings in the course of erection are not treated as taxable until they are under roof. This, as is told, is the general custom, and the above is not enough to explain away the seeming difference

of 453, above referred to, we give as a probable possibility the fact that death or bankruptcy may be instrumental in holding up indefinitely an operation for which a permit has been issued, and which, whether one or a hundred houses had to be included in our report because the building permit is the only basis on which such work can be even approximately estimated.

However optimistic we may personally feel as to the business conditions of the future, we are compelled to recognize the prevailing disposition of many to regard the outlook with gloom and depression. Indeed in many instances the statements have been so made as to give the impression that they were inspired and we have recently wondered if the wish was not the father of the thought and the desire for the thing most to be dreaded—the natural consequence of the people's mad race of money getting.

Episodes of but small account are given in the most exaggerated form.

The failure of the Miliken Bros. to control all the pig iron in America, Claffin's withdrawal of his European buyers are magnified and even the shrinkage in the over-exacted price of pig iron sent a cold shiver through the hearts of those who seem determined to have a panic anyhow.

We regret to acknowledge it but we fear that the make-up of American character has undergone a change. As a youngster we were cognizant of the terrible smash in 1857. There was no demoralization as a prelude to that awful crisis. We were very much alive when Sumter was fired on and everywhere in the North of the North wondered between their clenched teeth "Now, damn them, they have got to fight," and this only after concession upon concession had been granted and every conservative department had been made and when war was inevitable the best blood of the whole country rallied under the flag and many thousands of men were killed and wounded with and without arms or ammunition.

Are we going to surrender now and join in the cry of panic just because the commercial success has over-reached itself, or are we going to work seriously and earnestly with the help of our government's money bags to avert it?

What has a thing to do with the real estate question may justly be asked. We answer that, like the Wheat and Cotton crops, they are the things which make and unmake the real estate market in every locality of our country.

The money question is a simple one of supply and demand and while we may tickle our ego with the assurance—which we frequently get—that we have thirty-one dollars per capita, or more than the people of any other country, we as a people, the only one need not, but our thirty-one per capita vanishes as a practical factor like an idle dream just as soon as it is touched by the deep and cold hearted power of analysis.

First, let us ask what percentage of the thirty-one dollars per capita is held in the vaults of our governmental treasury departments?

Second, how much of this per capita is kept in positive idleness through the hoarding propensities of those who have no faith in financial institutions and the man who believes the amount infinitesimal as a whole, badly fools himself, for it amounts to many thousands in the hands of single individuals. Those acquainted with the Latin quarter of our own city, not only know this but they can tell you that we have put it very mildly.

We have not mentioned the bank reserve or the amount, much or little, always on hand awaiting legal investment and belonging to estates held in trust.

The national banks must sooner or later become national depositories. This is inevitable.

The people have a just right to the advantageous use of their own money and this seems a reasonable way to reach such an end.

Gentlemen, characterized for their wisdom in financial matters, but recently criticized for the inelastic character of our money system, but not a single one has suggested a remedy, because, as we think, the remedy would be to limit to their own customers refuse it and which is consequently kept in constant circulation, as such money meets the requirements in the daily life of the people and greatly relieves the difficulties even now associated with bankable money.

We have got to get free of the present terrible money pressure, the cause of our distress, or of the whose sentiments are jarred by the method adopted by the government.

Transfers of real property this year number 13,078 and the shrinkage in the value from that of last year's transfers for the same period is said to be owing to the large amount of unimproved property which cuts an important figure so far this year.

It will be seen that the mortgage incumbrance on the properties transferred amounts to 53.7 per cent, while for the same period of last year it was 49.1 per cent, while in 1905 it was 51.4 per cent, 1904, 46 per cent; 1903, 34.4 per cent; 1902, 30.1 per cent; 1901, 29 per cent, and in 1900, 30.7 per cent, hence it is conclusive that the equities have been seriously depreciated.

The ground rents show a total of \$39,595.72, which on a six per cent. basis, makes a further incumbrance on the properties transferred of \$6,325,095.33, or an additional 10.3 per cent. which

when added to the mortgage incumbrance percentage makes a total of 64.1 per cent, while the total for the same months of last year was 58 per cent. Has the danger line been reached as to equities?

The sales of real estate at auction this year suffer as a natural consequence of the abnormal demand. The sales this year amount to \$3,251,865.17 or \$480,290.02 less than for the same months of 1906.

The ground rents on Real Estate sold at Auction amount to \$582.87.

We give below the table of transfers of real estate since 1889:

Transfers.	Value.
1889—8,419	\$42,374,824.05
1890—8,160	42,063,784.01

1906—12,161	69,987,162.42
1907—13,078	60,995,434.95

The total number of dwellings erected and in course of erection up to June 30th is 5,201. Of this number 4,509 are two stories, 649 three stories and 43 four stories. Here then are 1144 dwelling houses of all kinds less than for the same months of 1906. There are 1066 less two story dwellings, 51 less three story and a gain of 3 four story dwellings.

The important losses by wards are as follows: The twenty-second ward lost 31; the twenty-third, 77; twenty-fourth, 24; twenty-fifth, 142; twenty-sixth, 184; twenty-seventh, 107; twenty-eighth, 114; thirty-fourth, 4; thirty-fifth, 4; thirty-sixth, 13; thirty-seventh, 10; fortieth, 606; forty-third, 21. But right here it must be stated that the new forty-fourth ward which last year was a part of the thirty-fourth of West Philadelphia shows a record of 38 two-story dwellings and the same also holds good as to the new forty-sixth ward which was clipped from the twenty-seventh—which has a record of 300 two-story dwellings this year. Consequently, West Philadelphia as a whole gives us so far this year 1424 two-story dwellings against 2747 for the same months of last year, a loss of 1323.

The present cost of land in this section as well as the wholesome conservatism which has prevailed among our builders is responsible for the loss. The important gains in two-story dwellings by wards other than those in West Philadelphia are as follows: Third ward, 6; eighth, 5; tenth, 6; fifteenth, 8; sixteenth, 19; thirty-third 134; thirty-sixth, 88; thirty-eighth, 78; forty-first, 58; forty-second, 99. It is surprising that the twenty-second ward, contrary to all predictions, is among the wards which show a serious loss in two-story dwellings.

There are 649 new three-story dwellings this year against 700 for the same months of last year, a loss of 51.

The wards which show important losses in these are the twenty-first, 3; the twenty-fourth, 26; the twenty-fifth, 4; the twenty-seventh, 112; twenty-eighth, 38; thirty-first, 3; thirty-fourth, 25; thirty-fifth, 8; thirty-seventh, 21; thirty-eighth, 5; thirty-ninth, 30; forty-first, 22, while the new West Philadelphia ward, the forty-fourth gets a record of 6 and the new forty-sixth a record of 16. West Philadelphia as a whole this year gives us 74 three-story dwellings against 215 for the same months of last year, a loss of 141.

The wards which show important gains in three-story dwellings are the first ward, 5; the second, 3; the twenty-second, 112; the twenty-third, 10; the twenty-sixth, 4; twenty-eighth, 3; thirty-second, 60; thirty-sixth, 3; forty-second, 4; forty-third, 21; forty-fourth, 6; forty-fifth, 3; forty-sixth, 16. The

twenty-second i. e., the Germantown and Chestnut Hill District, it will be seen gains 112 three-story dwellings.

There are 4 office buildings over two stories this year costing \$1,460,000. While for the same months of last year there were none. While those of two-story and under show a loss of 4 in number the investment in these is \$103,400 greater.

School houses are five in number, the same as last year but the cost is increased \$106,750. Churches are one less and the investment is \$46,950 less than that of last year for the same months.

Industrial buildings lose 9 in number, but the investment is greater by \$102,610.

Warehouses show a loss of 1, while those erected this year cost \$111,550 more than those erected up to June 30th last year.

Dye and dry houses gain 1 and gain in the investment, \$5,000.

Factories lose 4 and the investment is greater by \$530,740.

Engine and boiler houses lose 7 and the investment is \$64,000 less.

Breweries and bottling houses lose 1 and the loss in the investment as against that of last year is \$12,200.

Stores, not stores and dwellings, gain 8 and are greater in the investment by \$25,205.

The sixty-three miscellaneous buildings include synagogues, \$55,000; freight shed, \$100,000; hospitals, \$825,049; library, \$40,000; patrol house, \$10,000; police station, \$60,000; fire houses, \$52,500; freight station \$15,000; apartment houses, \$8,000; bank, \$23,000; hotel addition, \$150,000; parochial residence, \$25,000; infirmary, \$15,000; railroad station, \$10,000; garages, \$175,250; nurses' home \$30,000; vicarage, \$12,000; Y. M. C. A., \$650,000; club houses, \$87,000; parish houses, \$81,747; gymnasium, \$10,000; bath house, \$13,600; filter plant, \$13,900; power house, \$18,000; bakery, \$15,000; ice plant, \$25,000 and a few other buildings of minor importance.

To enable comparison we give our table of buildings in our July report of 1906:

ARCHITECTS' NOTES

Bissler & Sinkler, architects, 1218 Chestnut street, are preparing plans for a two-story brick and frame garage, 40x35 feet, near Baltimore, Md., for Mr. Robt. Garrett, of that place.

The Building Committee of City Council has invited Mr. Brinckle to meet the committee Wednesday night, July 24th, for the purpose of discussing the subject. These plans, it is said, provide for the preservation of the old building in its entirety; wings would be erected on the north and south sides of the present building of a suitable size, material and architecture to conform to the present City Hall. These wings would extend to King street, and along King street. The plans provide for another wing, and in the centre would be an open court. A driveway would be constructed under one of the wings, opening into this court. The plans also call for the remodeling of the present city court room, better accommodations for the police department, including new cells, and an addition to be erected in the rear and a tower seven stories high. If these plans are accepted, the city will have to acquire the property on the north side of the building at Sixth and Market streets and the entire strip on the south side, running from Market to King streets.

THAT MAN CHRISTENSEN

The old time Philadelphia pressed brick front, to the owner as well as the occupant, was a thing of beauty and a joy forever and indeed the reputation of the brick had at one time extended so far that the outside demand for it became an important commercial factor to the city's benefit.

The brick, however, cannot now be made because the clay has been exhausted. In the course of time the beauty of the old time brick fronts was destroyed and then the painter was called in and his putty and smear completed the obliteration forever.

It remained for Mr. Adolph Christensen, whose office is at 1433 Brown street (this city), to take in hand the cleaning and reclaiming the brick fronts of houses which still remained and which had not been ruined by the bungling methods of the painter.

How well Christensen and his men do the work can be better appreciated by a visit to a few of the buildings they have cleaned.

There are many examples all over the city of Christensen's skill in reclaiming old brick fronts. In every instance his skill and care is expressed to the great satisfaction of the owner and occupant, and indeed it is asserted that his method adds to the value of the property as well as increasing its attraction for renters. Real estate agents will find it greatly to their advantage in a business way in calling the attention of owners to the Christensen process.

At Susquehanna, the storehouse of the Erie Railroad was destroyed by fire last week, entailing a loss estimated at \$185,000.

At Pittsburgh, the Pittsburgh & Lake Erie Railroad Company has bought a tract of eleven acres at Glassport, Pa., and will make extensive improvements, on which work will be started at once.—A building permit has been issued to T. J. Keenan for the erection of a seventeen-story business block at Liberty avenue and Seventh street, Fourth Ward. The cost will be \$200,000.

—Mr. George W. Nicola has begun work on a two-story brick dwelling on Bayard street. The estimated cost is \$25,000.—The Shenley Farms Company has broken ground for eight two-story brick dwellings, two on Ruskin street, two on Tennyson street, two on Lytton street and two on Grant boulevard. They will be finely finished throughout, sanitary plumbing, electric lights, steam heat, and all modern conveniences. The total cost of the operation will be about \$96,000.—Mr. Henry Dublin will enlarge his dwelling on Butler street by the erection of an addition to cost \$7,500.

William A. Avey and Frank C. Irish have bought from the Ocre Land Company one hundred and ten acres of ground adjoining Mount Lebanon on the east. The price paid was \$110,000. The property will be improved, cut up into fine building sites and put on the market. It is expected that many handsome dwellings will be erected on the site, as the location possesses many advantages.—John Seibert's Sons Company has bought twenty-three building lots at Brookline from the Freehold Real Estate Company. The purchasers are contractors of the South Side, Pittsburgh, and the lots will be improved by the erection of dwellings, to cost about \$500 each. There will be twenty-two of these dwellings, and Mr. Frederick Seibert will erect a dwelling to cost \$10,000. All will have fine interior finish, open plumbing and the usual modern conveniences.—Mr. E. G. Feldman has taken out a permit for the erection of a three-story brick dwelling at Wilkins avenue and Wightman street. It will cost \$8,000.—The Aronson Realty Company has sold three lots to F. K. Smith on the Ingram Place plan. Mr. Smith will erect three dwellings on the site.—There is a movement on foot to repave Centre avenue from Morewood to Aiken avenue.—Plans, it is said, will soon be prepared for the almost complete re-construction of the City Home at Marshalsea, recently damaged

by fire. J. P. Shaw, Director of Charities, is in favor of such plans and has suggested such improvements to Mayor Guthrie and the charities committee. The idea is to buy additional ground adjoining the present site, to remove the power house and construct a new one elsewhere; to erect a new pavilion for the insane; to erect a new hospital and to reconstruct the laundry and the kitchen. The estimated cost of these improvements is from \$500,000 to \$550,000.—A new church site has been bought in the Schuylkill West View plan from the Freehold Real Estate Company by the St. Athanasius Roman Catholic congregation. The site comprises eleven lots, at Wentworth and Ashford avenue, and the price paid was \$13,400. The Building Committee has about approved plans for a buff brick church to be erected on the site at a cost of \$25,000. Mr. Frederick Schwitter, who is much interested, has given \$800 toward the construction of the church.
